Surveillance Device License Packs ===== The user can expand the surveillance device license to add new camera, I/O module, access controller, intercom, IP speaker and transaction devices at the same time. The CCTV device supports multiple I/O modules that can be used as Ethernet, USB, RS232, RS422, RS485 and RS422/485. If the user wants to upgrade the serial device, such as modbus, should purchase a new license for it. For example, adding two new cameras for two physical IP addresses, the IP address which used by the firmware is 192.168.100.1, the IP address which used by the camera is 192.168.100.2. The camera should always connect with the IP address 192.168.100.1. Then add two web server and two I/O module to the License Pack, the IP address of web server is 192.168.100.3 and IP address of web server is 192.168.100.4, the IP address of web server is 192.168.100.5 and IP address of web server is 192.168.100.6. At last, connect the web server and web server. For example, adding an additional I/O module, the IP address of web server is 192.168.100.3, the IP address of web server is 192.168.100.4. Connect the web server and web server. 1. Introduction ----- The key to expand the CCTV surveillance device license is to create a license by specifying physical devices, such as a camera and I/O modules. License Packs are designed for expanding camera, I/O module, access controllers, intercom, IP speaker and transaction devices. *License Packs are designed to be used when a CCTV surveillance device is being purchased. When a customer purchase the CCTV surveillance device, the customer purchase a CCTV surveillance device license, and should also purchase the CCTV surveillance device license at the same time.* The CCTV surveillance device supports multiple I/O modules that can be used as Ethernet, USB, RS232, RS422, RS485 and RS422/485. If the user wants to upgrade the serial device, such as modbus, should purchase a new license for it. 1.1. Required Device Types ----- To expand the license, the license should specify the I/O module devices in the license. 82157476af
